Milwaukee Valve Has The Big Butterflies!

The most popular products in the Milwaukee Valve offering are iron butterfly valves, one of the pillars of our complete line. The weights, patterns and designs of our products have been tested and refined to meet the highest industry standards and to give your customers complete peace of mind.

Often, large diameter (30-inch+) butterfly valves may not be readily available from your local distribution

Mandie Ehrett, Milwaukee Valve's marketing services manager, restocks inventory of large butterfly valves.

sources, due to the large sizes and challenges related to handling them, not to mention the cost to carry that inventory. But Milwaukee Valve stocks these large sizes and can ship from stock, even direct to job sites in some instances.

Iron butterfly valves are available in sizes ranging from 2-inch thru 48-inch and are available in cast or ductile iron. Standard disks are aluminum-bronze, but a wide variety of optional disc materials are available. For more information, just click [BUTTERFLY](#).

For pricing and delivery information, contact your Milwaukee Valve customer service rep today. A complete listing, by territory, can be searched at our website, at www.milwaukeevalve.com/find-sales-rep/.
