June 26, 2024

Ref: Price Increase Effective July 26, 2024

To: All Milwaukee Valve Distributors,

As a result of ongoing inflationary factors, please be advised that a price increase of 6% will take effect July 26, 2024, for all valve product groups. Please know that the new list and special net pricing can be calculated by dividing our current list and special net prices by .94.

The updated "Flat List" in Excel format with Universal Product Codes (UPC) is posted to our website at www.milwaukeevalve.com under the Resources tab. The printable price lists and mini-flat lists that reside within each product category will be available no later than July 12, 2024.

All orders placed prior to July 26, 2024, for immediate release, will be filled at current pricing. Additionally, Milwaukee Valve reserves the right to limit order quantities that may exceed historical and reasonable monthly purchase levels. All orders specifying release dates beyond July 26th will be filled at the price in effect at time of shipment.

All other terms and conditions of sale remain unchanged.

If you have questions, please contact your Milwaukee Valve sales or customer service representative.

Thank you for your continued interest and support of our products.

Very truly yours,

MILWAUKEE VALVE COMPANY, LLC
